Manager

### Addendum No. 2

Issued 9/03/2020, Bid #21-455-IC-01

*Boiler Replacement – Building Standards Center*

The following answers questions and clarifies information contained within the original bidding document released to bidders. Bidders should consider all information contained within issued addenda when considering their proposal and acknowledge receipt of all addenda in the space provided in the bid form - failure to do so does not relieve vendor from any responsibility to perform the project for the bid price offered. This Addendum consists of one pages.

### URGENT INFORMATION

It has been found that the information in relation to how many pumps are required for this system is incorrect in the bid specification. During the walk-through it was thought that it had been discussed, but unfortunately there have been questions concerning the requirements.

In the bid the specifications makes reference to “pumps” needed, however, according to the Facility Services Manager, the new system will require only a Primary Pump. It will be necessary that the configuration for the system match the need for only a primary pump.

Bid deadline is today at 4:00 PM, September 3, 2020. You are permitted to send these electronically to my attention before the deadline.

Sincerely,

*Mrs. Antonia Stines*
